

Verdamat 900g Coir Matting Specification Sheet

Product

Coir Yarn 900gsm Rolled Erosion Control Blanket

Typical Applications

- Erosion Control
- Re-Vegetation
- Stream Bank Stabilisation
- Soil Erosion Control
- River Embankments
- Landscaping

Specification

Material:	100% coir fibre		
Dimensions:	width 2m x length 25m		
Thickness:	9.7mm		(tested according to ASTM D 5199)
Apparent opening size:	10mm x 12mm		(tested according to ASTM D 4751)
Mass:	906gsm		(tested according to ASTM D 5261)
Tensile strength dry:	mc 11.0	(kN/m) cross 9.0	(tested according to ASTM D 4595)
Tensile strength wet:	mc 10.2	(kN/m) cross 8.6	(tested according to ASTM D 4595)
Elongation at break dry %:	mc 26	cross 29	(tested according to ASTM D 4595)
Elongation at break wet %:	mc 40	cross 40	(tested according to ASTM D 4595)
Grab elongation %:	mc 23	cross 23	(tested according to ASTM D 4632)
Open area %:	34% (calculated)
